### **Appointments**

Mike Tardiff, CNHPC – Spoke about how Economic Development goes with the Master Plan and that it's good that the Town is working on both at the same time. He discussed possible zoning initiatives that the Town may be able to incorporate into certain areas of Town. Those will require some research.

Website presence is a large opportunity. When businesses want to move into town that will be one of the first things they look at. Working to make the website informative with links to parcels of land available as well as area statics.

Also look to see what other EDCs are doing and research the possibility of working with other communities to form a larger regional EDC.

Work with current businesses on retention and recruiting of other businesses.

Work with DOT on Route 4 issues.

### **Adjournment**

Thomas Houle motioned to adjourn the meeting at 2:25pm Mark Blanchard seconded. **Motion passes**

Respectfully submitted
